Reef Clubs

Red River Valley Reefers is a local reef hobbyist club serving the Red River Valley area of North Dakota and Minnesota. The majority of members are located in the Fargo and Grand Forks areas. It focuses on sharing information about the saltwater reef aquarium hobby in an effort to improve member success in the hobby and promote education, conservation and propagation.

If you are interested in being a part of the club and seeing all the benefits we have to offer, please check out the website and register for the forums. We welcome all levels of hobbyists whether you are just beginning or have a marine biologist background. The members are very friendly and eager to help you be successful in your venture into the saltwater aquarium hobby. In addition to the information within our club, as a member you will also have access to meetings, events, as well as the club marketplace where you can find great deals throughout the year.
